LeadER EXPO mobile app

A modern way of collecting contact information, without paper questionnaires, without collecting business cards, without errors and the human factor.

Features of LeadER EXPO

- Instant identification of the target visitor by scanning their badge;
- Formation of a database of contacts for managers who worked with the visitor of the stand;
- Add notes/photos to collected contacts, both during and after the meeting;
- Questionnaire in order to identify the interests and capabilities of the visitor;
- Motivation of stand employees with KPI analytics of their work during the exhibition, even if you yourself are not present at the exhibition site.
- Online reports with the results of the stand, without waiting for the end of the event.
- Using LeadER EXPO, you automatically become a participant in the struggle for the title of Active Stand of the main exhibition of the industry.

Using LeadER EXPO, you automatically become a participant in the struggle for the title of the Active Stand of the main industry exhibition.

Partnership opportunities

We invite you to take part in the exhibition as a partner

Partner status

It emphasizes the high level of the company and provides companies with the opportunity to effectively solve corporate, marketing and communication problems among the target audience of the forum.

It will allow you to consolidate your leadership position in the industry, provide a unique opportunity to promote your product, both among the professional target audience and direct customers.

Each of the ready-made affiliate packages contains an optimal set of tools that solve the problems of the most effective participation in the exhibition. The content of the packages can be adjusted and the set of options revised to create an individual affiliate package, in accordance with the marketing goals and objectives of your participation in the exhibition.
